## Ring Size Guide

For best results, use all three steps of this guide along with our video to help you most accurately determine your ring size.

## 1. Paper Sizer Method

(Best results when hands are warm)

- Print and cut out ring sizer. Cut small slit that is marked next to box .
- Ask someone to Slip pointed end through the slit, numbers facing out.
- Slide sizer down to the base of your finger
- Secure the ring sizer by pulling each end snuggly around your finger like abelt.
- Your approximate ring size should be the number that appears where it says "Read Size" Measurements resulting between two whole numbers can be considered a half size. Check twice before ordering to avoid resize charges.

## Tips:

- For the most accuracy, have someone help you measure.
- Double check for accuracy.

## 2. Floss/String Method

Measure your finger by wrapping floss around it. Find the length of the floss that makes exactly one loop around, and use the chart below for reference.

3. Ring Method (Tip: Close one eye for best results)

If the finger is not available for measuring (ie a surprise gift), use a ring from the individual's current jewelry collection.

Place the ring on a circle within the chart below. The correct circle size should fit right against the inside edge of the ring.
